This Service Guide establishes the standard terms and conditions applicable to the provision and use of Easton Telecom Services, L.L.C.'s ("Easton" or "Company") retail local exchange and interexchange Telecommunications Services in those jurisdictions where Easton has been authorized to provide Telecommunications Services and does not maintain a tariff. A written Service order or use of Easton's Services constitutes agreement to all terms and conditions set forth herein, including any other documents specifically incorporated herein by reference.

This Service Guide applies exclusively to retail telecommunications Services furnished by Easton and does not apply, unless otherwise specified, to any other services, including, without limitation, information services and other unregulated services offered by Easton. Except as expressly specified with respect to particular Service plans ordered by Customers. This Service Guide does not apply to lines, facilities, or services furnished to Customers by other carriers, including, without limitation, lines, facilities, or services that are used by Customers to access Easton's Services or to complete calls to or from points beyond Easton's local network calling areas. Customers are solely responsible for obtaining any Customer Premises equipment and for establishing suitable agreements or other arrangements with other carriers that may be needed to access and use Easton's Services.

This Service Guide, together with any applicable Tariffs, Price Lists, and/or service agreements, establish the sole and exclusive rates, terms, conditions, and understandings pertaining to Easton's provision and Customer's use of retail telecommunications services ordered by Customer, and supersede all prior proposals, representations, and understandings, whether written or oral, with respect to such Services. No provisions of this Service Guide or those appearing in any applicable Tariff may be changed, waived, or otherwise amended, or modified in any manner except pursuant to a written document that has been duly executed by Easton for such a purpose.

In the event of any conflict between the provisions of this Service Guide and any applicable Tariff or Written Agreement, such conflict will be resolved by giving preference, first, to the applicable Tariff provisions, second to a Customer-specific Written agreement, and then to this Service Guide.

BY PRESUBSCRIBING, OTHERWISE UTILIZING, OR PAYING, DIRECTLY OR INDIRECTLY FOR COMPANY'S SERVICES, YOU HEREBY AGREE TO THE RATES, CHARGES, TERMS, AND CONDITIONS WHICH FOLLOW. IF YOU BELIEVE THAT YOUR USE OF SERVICES HAS BEEN MADE IN ERROR, PLEASE CONTACT EASTON'S SERVICE DEPARTMENT IMMEDIATELY AT 800.222.8122.

Easton's terms and conditions are subject to change at Easton's sole discretion unless otherwise directed by a regulatory utility Commission. Customers will be notified of changes through bill messages or inserts or otherwise in accordance with applicable law prior to the date on which changes become effective. Changes will also be posted on Easton's website at <https://eastontelecom.com>.

Where allowable by State or Federal regulation, Company may require a deposit from an existing Customer as a condition to the further provision if, according to Company's assessment, the Customer has become a credit risk.

Unless otherwise established by Federal or State regulation, Company will calculate the maximum deposit required from an applicant for business Service or an existing Business customer by estimating the expected charges for Service for up to a four (4) month period. CONDITIONS OF SERVICE

CREDIT

Company, to ensure payment of its charges for Service or for loss of or damage to Company property, will require Applicants and Customers to establish and maintain credit. The establishment or re-establishment of credit as provided in this Section does not relieve an applicant or Customer from compliance with other provisions of this Service Guide as to the payment of bills and in no way modifies applicable provisions of this Service Guide regarding disconnection and termination of Service for failure to pay bills due for Service furnished.

Company may require any applicant or Customer to establish and maintain credit by:

- Demonstrating credit satisfactory to Company by providing information pertinent to the applicant's or Customer's credit standing
- By submitting a business credit evaluation plan. Such a plan will be submitted to the Commission
- Providing a suitable guarantee in writing, in a form presubscribed by Company; or
- Paying a cash deposit.

Company may determine, in its sole discretion, whether a particular reference or guarantee in writing would be acceptable as a substitute for demonstrating satisfactory credit.

Company will extend credit to an applicant for new Service without a deposit if the applicant has verifiable previous or existing telephone service with any telephone company in the United States for at least twelve (12) months, and the payment record is made available, and the account history is satisfactory. The payment record of an account will be deemed satisfactory if all the following are met:

- The previous or existing service was not discontinued for nonpayment, and was not abandoned, within the past twelve (12) months
- The applicant has not been sent denial notices for previous or existing service within the past twelve (12) months
- The applicant has paid for all previous and existing service without referral to a collection agency and without a declaration of un-collectability; and

To safeguard its interests, Company may require a Customer to make an advanced payment before Services are furnished unless otherwise prohibited by regulation in the jurisdiction over the Service. The advanced payment will not exceed an amount equal to the nonrecurring charge(s) and one (1) month's recurring charges for the Service. In addition, where special construction is involved, the advanced payment may also include an amount equal to the estimated non-recurring charges for the special construction and recurring charges for a period to be set between Company and the Customer (if any). The advanced payment will be credited to the Customer's initial bill. An advance payment will be required in addition to a deposit.

Customer credit information may be exchanged between telecommunications companies and other utilities in the ordering or provision of Service. Customer credit information will be retained for two (2) years, unless otherwise required by the Commission. If an applicant for Service is unable to provide satisfactory credit information, the Company may disconnect the service not sooner than five days after delivery or eight days after mailing of written notice of intention to disconnect.

This Easton Telecom Services, L.L.C. Service Guide is subject to change by the Company from time to time. See Company web site for current version. This Service Guide reflects the version in effect as of April 1, 2023.

CONDITIONS OF SERVICE

PAYMENTS AND BILLING

Service is provided and billed on a monthly (30 day) basis. The billing date is dependent on the billing cycle assigned to the Customer.

Non-Recurring Charges and Monthly Recurring Charges based on actual usage, are billed monthly in arrears, except as provided below.

Unless otherwise prohibited, usage charges may be billed without being detailed as to the duration, time of day, or destination of individual calls. If a Customer accumulates, within any consecutive five (5) day period, usage charges exceeding twice the average monthly usage charges for the previous two (2) monthly billing periods, and the Customer's credit record indicates that satisfactory payment may not be made on this amount, Company may issue a special usage bill. The special bill shall be due ten (10) days from the mailing date of the bill, seven (7) days if hand delivered.

If any portion of the payment is not received by the Company by the bill due date, or if any portion of the payment is received by the Company in funds that are not immediately available, a late payment fee may be imposed by the Company. The late payment fee will be established at the rate of 1.5% per month or the highest rate permitted by law or regulation.

A Customer will not be liable for any late payment charge applicable to a disputed portion of that Customer's bill, so long as the Customer pays the undisputed portion of the bill and enters into bona fide negotiations to resolve the dispute on a timely basis.

Checks presented in payment for Services and subsequently returned to Company by the Customer's financial institution for "Non-Sufficient Funds" or other reasons will incur a nonrecurring charge of \$35.00 per check, or the highest rate permitted by law.

A Customer will be placed on a "cash only" basis upon receipt of two (2) returned checks within a twelve (12) month period. "Cash only" is herein defined as cashier's checks, U.S. currency, or money orders.

Receipt of a subsequently dishonored negotiable instrument in response to a notice of discontinuance will not constitute payment of a Customer's account and Company will not be required to issue additional notice prior to discontinuance. However, three (3) banking days must be allowed for redemption of such instrument.

In the event that a Customer pays a bill as submitted by the Company and the billing is later found to be incorrect due to an error either in charging more than the published rate, in measuring the quantity or volume of service provided, or in charging for the incorrect class of service, the Company shall refund the overcharge with interest from the date of overpayment by the Customer. The rate of interest shall be the rate as established by the Commission to be paid on deposits. The refund shall be accomplished by a credit on a subsequent bill for telephone service, or by check if the account is final, or if so requested by the Customer

CONDITIONS OF SERVICE

CONDITIONS OF SERVICE

PAYMENTS AND BILLING, Continued

In case of a billing dispute between Customer and Company as to the correct amount of a bill, which cannot be adjusted with mutual satisfaction, Customer may enter the following arrangement:

In the event a Customer pays a bill as submitted by the Company and the billing is later found to be incorrect due to an error either in charging more than the published rate, in measuring the quantity or volume of service provided, or in charging for the incorrect class of service, the Company will refund the overcharge with interest from the date of overpayment by the Customer.

- First, Customer requests, and Company will comply with the request, an investigation and review of the disputed amount.
- The Customer pays the undisputed portion of the bill by the Due Date shown on the bill or the Service will be subject to disconnection if Company has notified Customer by written notice of such delinquency and impending Termination.
- If there is still disagreement after the investigation and review by a manager of Company, Customer may appeal to Commission and/or state regulatory utility commission having jurisdiction for its investigation and decision:

Federal Communications Commission complaints may be submitted at <https://consumercomplaints.fcc.gov/hc/en-us>

State regulatory utility commissions are listed at <https://www.naruc.org/about-naruc/regulatory-commissions/>

- Company will not disconnect Customer's Service for nonpayment as long as Customer complies with this arrangement.
- Company will respond to the Commission or state regulatory utility commission requests for information within ten (10) business days, or as otherwise set forth by the requesting entity.
- The Commission will review the claim regarding the disputed amount, communicate the results of its review to Customer, and require disbursement according to those results.
- After the investigation and review are completed by Company as noted above, if Customer elects not to deposit the amount in dispute with Commission, such amount becomes due and payable at once. In order to avoid disconnection of Service, such amount must be paid within seven (7) calendar days after the date Company notifies Customer that the investigation and review are completed and that such payment must be made, or Service will be interrupted. However, the Service will not be disconnected prior to the Due Date shown on the bill.
- Limitations of Damages and of Period for Bringing Claims - The entire liability of Company for any claim, loss, damage or expense from any cause whatsoever shall in no event exceed sums actually paid to Company by the Customer for the specific Services giving rise to the claim, and no action or proceeding against Company shall be commenced more than one (1) year after the Service related to the claim is rendered. Claims applicable to overbilling against Company shall be commenced no more than two (2) years after the Service related to the claim is rendered pursuant to Section 415, U.S. Code, 47 U.S.C. §415.

CONDITIONS OF SERVICE

PAYMENTS AND BILLING, Continued

- If there is still a disagreement about the disputed amount after the investigation and review by a manager of Company, the Customer may file an appropriate complaint with the Commission having jurisdiction.

TAXES AND SURCHARGES

Customer must pay, without limitation, all sales, use, gross receipts, excise, access, bypass, and other local, state and federal taxes, charges, fees, and surcharges, however designated, imposed on or based upon the provision, sale or use of the Services (excluding taxes on Company's net income). Such taxes may be separately stated on the applicable invoice.

ALLOWANCES FOR INTERRUPTION OF SERVICE

For the purpose of applying this provision, the word "interruption" means the inability to access Service due to equipment malfunction or human errors. "Interruption" does not include, and no allowance will be given for, Service difficulties such as slow access, circuits busy or other network and/or switching capacity shortages.

Credit allowances will be for interruptions of Service which are not due to Company's testing or adjusting (when proper notice and release is obtained), to the negligence of the Customer, or to the failure of channels, equipment and/or communications equipment provided by the Customer or another Carrier and are subject to the general limitation of liability provisions set forth in herein. Customer must notify Company of any interruptions of Service. Before giving such notice, the Customer must ascertain that the trouble is not caused by any action or omission of the Customer, and not otherwise within the Customer's control.

For purposes of computing a credit, each month is considered to have 720 hours. No credit will be allowed for an interruption of a continuous duration of less than two hours. Company will credit the Customer for an interruption of two (2) hours or more at the rate of 1/720th of the monthly charge for the Service affected for each hour or major fraction thereof that the interruption continues.

Credit formula: $\text{Credit} = (A/720) \times B$

A - outage time in hours

B - total monthly charge for affected Service

Commission service credit rules take precedence in the event that the above provisions may conflict with Commission rules.

CONDITIONS OF SERVICE

SUSPENSION, TERMINATION OR MODIFICATION OF SERVICE BY CUSTOMER

Customers may suspend or terminate Service by providing written notice to Company prior to suspension or termination unless otherwise established under a written agreement. Notice must specify the date on which Service is to be suspended or terminated.

The Customer remains responsible for all Service charges until the day and time on which Service is actually disconnected.

If Customer cancels Service before Company completes installation of the Service and at the time of cancellation Company has incurred any expense in installing Services or preparing to install Service that it would not otherwise have incurred, a charge equal to the cost Company incurred will apply. In no case will this charge exceed the charge for the Minimum period of Services ordered, including installation charges and Non-Recurring charges and all amounts others may charge Company that would have been chargeable to the Customer had Service been initiated.

If the Customer cancels Service after Company has completed installation, the charge set forth above will apply to the extent Company has not yet recovered the costs described above. In addition, the Minimum Service period obligations will apply regardless of whether Service has been initiated and the charges due apply.

In the case of a Customer-initiated modification of Service, charges for the subsequent order are in addition to the costs incurred before the Customer changed the original order.

Company may immediately discontinue furnishing the Service to a Customer without incurring liability:

- If there is a condition determined in Company's sole discretion to be hazardous to the Customer, to other Customers of Company, to Company's equipment, to the public or to employees or agents of Company
- If Company deems refusal or disconnection necessary to protect itself or third parties against fraud or to otherwise protect its personnel, agents, facilities or Services
- For non-compliance with and/or violation of any State or municipal law, ordinance or regulation pertaining to Service
- For use of Company's Services for any purpose other than that described in the application
- In the event of Customer use of equipment in such a manner as to adversely affect Company's equipment or the Service to others
- In the event of tampering with the equipment furnished and owned by Company; or
- In the event of unauthorized or fraudulent use of Service.

This Easton Telecom Services, L.L.C. Service Guide is subject to change by the Company from time to time. See Company web site for current version. This Service Guide reflects the version in effect as of April 1, 2023.

CONDITIONS OF SERVICE

SUSPENSION OR TERMINATION OF SERVICE BY COMPANY

Company may, without incurring liability, refuse, suspend or terminate the Service for any of the following reasons, provided that the Company shall issue ten (10) days written notice to the Customer via first-class mail prior to termination of Service.

Telephone numbers will not be changed as a penalty or to enforce payment for directory advertising charges.

EMERGENCY NUMBER SERVICE (911)

Emergency Number Service allows customers to reach appropriate emergency services including police, fire and medical services. The telephone user who dials the 911 number will not be charged for the call.

Emergency Number Service may be classified as one of two types: Basic service or Enhanced Service. Basic Emergency Number Service provides for routing all 911 calls originated by telephones having telephone numbers beginning with a given central office prefix code or codes to a single Public Service Answering Point (PSAP) that is prepared to receive those calls. Enhanced Emergency Number Service provides certain features such as selective routing of 911 calls to a specific PSAP that is selected from the various PSAP serving Customers within that central office area. Basic and Enhanced Emergency Number Service are one-way services limited to the provision and use of the digits "9-1-1" as the Universal Emergency Telephone Number code.

For Emergency Number Service, the incumbent local exchange carrier, municipality, or government agency(ies) designated as responsible for the control and staffing of the emergency report center is referred to as the "Agency".

This Service Guide does not provide for the inspection or constant monitoring of facilities to discover errors, defects or malfunctions in Emergency Number Service, nor does the Company undertake such responsibility.

Emergency Number Service information, consisting of the names, addresses and telephone numbers of all telephone customers, is confidential. The Company will release such information periodically for the update of their systems.

The Emergency Number Service calling party, by dialing 911, waives the privacy afforded by non-listed and non-published service to the extent that the telephone number (ANI) and address (ALI) associated with the originating station location are furnished to the PSAP, on a call-by-call basis, after an Emergency 911 call has been received.

Service boundaries of the Company and political subdivision boundaries may not coincide. In the event that the Agency does not subscribe to Selective Routing, it must make arrangements to handle all Emergency Number Service calls that originate from telephones served by Central offices in the local service areas (i.e., exchange) whether or not the calling telephone is situated on property within the geographical boundaries of the Agency's public safety jurisdiction.

The Company may provide a unique intrastate service arrangement for a Customer where no Service exists for the service. The unique service can be provided via a special assembly.

The Company will maintain records of its Special Assembly contracts for Commission review as conditions or circumstances may require.

ICB rates will be offered to the Customer in writing and on a non-discriminatory basis.
